

2300AT

Forage Harvester

At JF, we take your forage seriously! What about you?

Find out why JF 2300 AT is the perfect solution for professional farmers and silage contractors for having a quicker harvest and an inline driving experience with the tractor/harvester set.

FEATURES

- ✓ Front and rear coupling to the tractor for an inline driving experience, easier maneuvering and optimized harvesting in plots without space on the edges;
- ✓ Exclusive Twin Rotor technology and 4 front drums for real higher productivity;
- ✓ 2,30m wide row-independent header with front drums, feeding box and aligners with exclusive design for a constant harvest flow and lower stress on transmission and tractor. In maize and sorghum it harvests 4 rows at a time with row spacing of up to 70 cm; and 3 rows at a time with row spacing of up to 90 cm;
- ✓ Heavy-duty transmission and reliable design from the world's leading brand of forage harvesters;
- ✓ 24 chop sizes available with easy shifting, perfect for working in various forage, harvesting, and dry matter conditions;
- ✓ Feeding box with 4 drums and spring-loaded drum for a more precise chopping. It also features central lubrication system and built-in sharpener for quicker daily maintenance;
- ✓ Electric/hydraulic control by joystick for easier operation.

With JF you take complete control over the time and manner your forage is harvested!

Twin rotors: higher productivity!

4 drums: more precision!

Central lubrication

KERNEL PROCESSOR

+ PRO Kernel Processor: +PRO processes grains for higher energy in the feed and less fecal starch. Working together with "C" technology rotor blades, this system delivers the correct fiber sizes for a healthy rumination and better animal performance.

TECHNICAL SPECIFICATIONS

Capacity	up to 54 ton/h ²	Chop size	24 (from 2 up to 36mm)
Working width	2,30m ¹	Number of blades	12 (per rotor)
Required power at PTO	from 115 up to 150 hp	Approximate weight	2118 kg
Required rotation at PTO	1000 RPM	Linkage type	cat II
Drive	tractor PTO	Transmission system	gearbox / cardan

¹Productivity might vary and depends on the following factors: cut size; productivity of forage per hectare; tractor power; logistic capacity (wagons) for forage transportation. Before acquiring the equipment, please talk to your dealer about the size of your tractor tire.
