

JF 92 Z10

Forage harvesters

SMART

Powerful, durable and affordable! !

JF 92 Z10 is the solution to meet the needs of livestock farmers that seek simplicity and quality to produce silage with low investment. Its technology allows to harvest forage planted in rows such as maize, sorghum, and others, including tropical grasses that always demand a very resistant harvester.

FEATURES

- ✓ Proven in over 55 countries;
- ✓ Robust transmission system along with a reliable design from the world-leading forage harvester manufacturer;
- ✓ Feeding system with 4 drums : chopping precision, better silage quality;
- ✓ Powerful rotor with "Z" technology blades: chops and blows simultaneously for higher harvesting speed;
- ✓ 12 chop sizes available of simple shifting: higher control for several crop and dry matter conditions;
- ✓ Central lubrication system and built-in sharpener for quicker daily maintenance.

At JF, we take your forage seriously! What about you?

Feeding system with 4 drums:
chopping precision

12 chopping sizes: higher control
