

JF MIX 3500 V

Feed Mixers

At JF, we take your forage seriously! What about you?

The JF Mix 3500 V ECO was created to meet the needs of the farmer that was looking for a simple, resistant and practical machine, and understands the crucial importance of an uniform mixture of forage, concentrate and minerals for the feeding of livestock.

This equipment, with easy operation and advanced technology, offers an efficient diet to the animals without complications.

BENEFITS

- ✓ Simple to operate, without the requirements and digital knowledge that are needed for the models equipped with weighing systems;
- ✓ Robust and simple wheels and tires that allow to work on any type of terrain;
- ✓ Built in carbon steel of high quality;
- ✓ Resistant and durable planetary transmission;
- ✓ Design, auger and transmission identical to the already renowned vertical feed mixer JF Mix 3500 V;
- ✓ MOVmix system which assures an uniform mixture from the first to the last animal.

JF MIX 3500 V ECO: the main ingredient for a winning diet!

MOVmix System: a more uniform mix

Feed opening: addition of balanced feed

Complete tank: carbon steel

TECHNICAL SPECS

Drive	tractor-mounted	Electronic weighing scale	not included
Capacity	3,5m ³	Weighing cell	not included
Width	2650mm	Discharge belt	not included
Height	2180mm	Tires	10.5/65-16 RA 28 8
Required rotation at PTO	540 RPM	Weight (without load)	2377kg
Required power at PTO	From 50hp	Discharge door	on the right side
